TOOL	WHAT IT DOES	QUICK WIN	PRICE	TO START
Claude WRITING	Long-form content, email sequences, and strategy documents with strong reasoning and minimal hallucination.	Paste your best-performing blog post. Ask: "Write 5 LinkedIn posts from this. Match the tone exactly." Schedule all 5.	\$20/mo Free tier available	● Easy
HubSpot AI CAMPAIGNS	AI-assisted email subject lines, A/B testing suggestions, and campaign performance predictions inside HubSpot.	Turn on AI subject line suggestions on your next campaign. The feature generates 5 variants and predicts open rates.	Included Starter+ plans	● Easy
Jasper SCALE	Content scaling platform. Feed brand voice and one-pagers; it outputs on-brand blog drafts, ads, and landing copy.	Upload your brand tone guide. Generate 10 LinkedIn ad variants for your next campaign in under 20 minutes.	\$49/mo Per seat	● Medium
Canva AI DESIGN	Magic Design turns a text brief into a polished visual in seconds. Magic Write rewrites any element on the canvas.	Select any existing Canva post. Click "Magic Switch" → choose a different format (story → carousel). Done in 10 seconds.	\$16/mo Pro plan	● Easy
Perplexity RESEARCH	AI search with cited sources. Ideal for competitive research, trend briefings, and pre-campaign market analysis.	Ask "What are competitors saying about [topic] in Q1 2026?" and get a cited briefing in 30 seconds, not 30 minutes.	\$20/mo Free tier available	● Easy

❑ **Superdots take:** Most marketing teams already pay for HubSpot and Canva. Turn on the AI features you're already paying for before buying new tools. 80% of teams haven't done this.

TOOL	WHAT IT DOES	QUICK WIN	PRICE	TO START
Gong CALL INTEL	Records and transcribes sales calls. AI surfaces winning patterns, objection trends, and deal risk signals automatically.	After every call, open Gong's "Key Moments" tab. It highlights the 3–5 moments that most predicted deal outcomes. Review before your next follow-up.	~\$1,600/yr Per user	● Medium
Apollo.io PROSPECTING	B2B database with 275M+ contacts. AI scores leads, identifies lookalikes, and writes personalised outreach in bulk.	Build a saved search with your ICP filters. Apollo's AI will add new matches automatically. Set an alert to review 10 new leads/week.	\$49/mo Basic plan	● Easy
Lavender EMAIL	Real-time AI coach that scores cold emails and suggests improvements as you type. Integrates with Gmail and Outlook.	Install the Chrome extension. Write your next prospecting email. Lavender gives a score and one specific fix. Aim for 90+.	\$29/mo Individual plan	● Easy
Clay ENRICHMENT	Pulls data from 50+ sources (LinkedIn, Clearbit, News) and uses AI to write personalised outreach lines at scale.	Upload a list of 50 target accounts. Use Clay's "AI message" column to write a personalised opening line per row. Takes 5 minutes.	\$149/mo Starter plan	● Medium
ChatGPT PROPOSALS	Fast proposal drafts, objection responses, and discovery question prep. Best when given specific context about the deal.	Before every discovery call: paste the prospect's LinkedIn bio and recent company news. Ask "What 5 discovery questions should I ask?" Takes 60 seconds.	\$20/mo Plus plan	● Easy

- ❑ **Superdots take:** Lavender (\$29/mo) consistently improves reply rates by 15–30% based on user reports. It's the lowest-effort, highest-impact tool on this list for individual reps.

• Operations

TOOL	WHAT IT DOES	QUICK WIN	PRICE	TO START
Make AUTOMATION	Visual no-code automation platform. Connects 1,500+ apps. More powerful than Zapier for complex multi-step flows.	Automate your most-repeated manual task. Example: "When a form is submitted → create Notion row → send Slack alert." Takes 20 minutes to set up.	\$9/mo Core plan	• Easy
Notion AI DOCS	AI writing and summarization built into Notion. Turns rough notes into SOPs, meeting summaries, and project briefs.	After your next team meeting, paste the raw notes into Notion. Type "/AI summarise" — get a structured summary with action items in 10 seconds.	\$10/mo Add-on per member	• Easy
Fireflies.ai MEETINGS	AI notetaker for Zoom/Teams/Meet. Records, transcribes, and generates action items with assignees and deadlines.	Invite bot@fireflies.ai to your next recurring team meeting. You'll get a timestamped transcript and action items in your inbox within 5 minutes of ending the call.	\$18/mo Pro plan	• Easy
Claude SOPS	Turns messy process notes, Slack threads, or verbal descriptions into structured, reviewable SOPs in minutes.	Describe a process you run manually ("Every Friday I..."). Ask Claude to write an SOP with numbered steps, inputs, outputs, and edge cases. Takes 5 minutes.	\$20/mo Free tier available	• Easy
Loom AI COMMS	Screen recorder that auto-generates titles, summaries, and action items from your video. Cuts async back-and-forth.	Next time you'd write a 5-paragraph Slack message explaining something complex — record a 90-second Loom instead. The AI summary gives them the TL;DR upfront.	\$15/mo Business plan	• Easy

- ❑ **Superdots take:** Fireflies + Make together automate 80% of post-meeting admin. Fireflies creates the action items; Make routes them to your project management tool. Under \$30/mo combined.
